Help & More

After you have successfully logged in to VESTA, click on the Help & More tab, located at the top of the page.

VESTA Demo

To enter the VESTA-Demo site, click [\[Log in to VESTA-Demo\]](#), located on the right side of the screen.

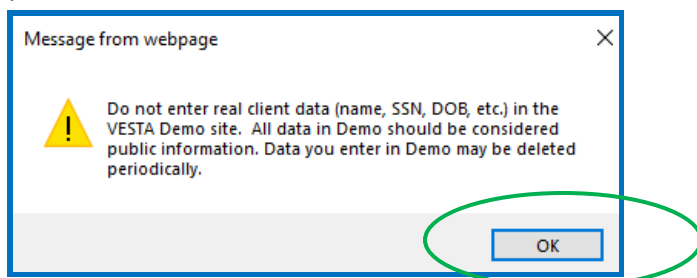

VESTA-Demo – What to do with the Demo site

VESTA-Demo

VESTA users can access the VESTA-Demo website to preview new VESTA features or practice entering data. Each agency using VESTA has a special account which automatically gives you access to the VESTA-Demo website.

No real client data

Before you enter the VESTA-Demo site, you will receive the message shown below. By clicking ok, you understand that you should not enter real client data on the VESTA-Demo site.

Access to projects on VESTA-Demo

Since each Demo account is linked to the corresponding agency, a VESTA user will have access to all projects within the agency on the Demo site. The projects that are available to you on the VESTA-Demo site may include projects that you do not have access to on the VESTA Live site.
